Welcome Message

Dear Supporters and Friends,

Building on the success of previous Advanced Academic Rheumatology Review Course (AdARRC™), we are pleased to announce the 17th annual course which will be held in Abu Dhabi on 19-21 March 2027. The AdARRC™ experiences strong commitment from the rheumatology community with close to 500 delegates in attendance annually. The scientific programming has proven to be what the delegates are seeking.

The AdARRC™ is designed to keep participants at the cutting edge of developments in the fields of Rheumatology, Clinical Immunology and Ultrasound. AdARRC™ also brings together many of the world's leading Rheumatology experts to present and share their valuable clinical knowledge and their latest basic and clinical research findings in a review course. It is also a unique networking opportunity and knowledge exchange to engage both participants and key opinion leaders.

The course will cover multiple selected topics in pediatric and adult Rheumatology as well as experimental innovative therapies presented by international key opinion leaders in Rheumatology. In addition, workshops are designed to allow delegates to ask and discuss the questions which are important to their clinical practice and exchange expert opinions. These workshops have been developed by the speakers along with their sessions.

Advanced Academic Rheumatology Review Course is a premier opportunity for pharmaceutical, device and healthcare product manufacturers to launch new products, present findings of recent studies and conduct intensive person-to-person communication campaigns to decision-makers and healthcare providers in the diaokaygnosis, treatment, management of Rheumatology diseases.

AdARRC™ recognizes that progress in health care depends on partnering between the healthcare industry and healthcare providers. The committee is therefore pleased to present a comprehensive sponsorship program to continue this exciting endeavour and welcome industry participation in supporting this unique inter-professional educational activity. We look forward to discuss these opportunities.

Destination

Abu Dhabi

Abu Dhabi is the capital city of the United Arab Emirates with its centre situated on an island, separated from the mainland by a narrow water channel. The city makes full use of this natural asset, with the impeccably maintained Corniche, running for several kilometres along the shoreline and a focal point for social activities. It is a thoroughly modern city with gleaming skyscrapers and beautifully landscaped gardens but there remains a pride in its culture and heritage.

In recent years, Abu Dhabi has become increasingly well known, both through its dramatically enhanced tourism facilities and its worldwide sponsorships and partnerships. The city now plays hosts to a Formula 1 race on what is probably the world's best racing facility. The first ever branch of the Louvre is now open in Saadiyat Island, a dedicated cultural centre that will also house a branch of the Guggenheim. It is home to the most expensive hotel ever built, the magnificent Emirates Palace and regularly hosts world class cultural and sporting events. In short, Abu Dhabi has become a truly cosmopolitan capital city and it is well worth extending your stay to enjoy its many attractions.

Climate

Abu Dhabi has an arid desert climate- extremely hot and humid in summer, pleasantly warm in the winter. Although the fierceness of the summer heat starts to decline during September, days are still hot with temperatures usually in the upper 30's Centigrade (upper 80's Fahrenheit), so good for sunbathing on a beach or relaxing around the pool. The evenings are very warm and usually still rather humid so there is no need for coats or pullovers if you are outside, but a pullover or wrap is useful for the coolness of air conditioned interiors. You are extremely unlikely to see any rain during your stay, just 12 hours of sunshine.

Getting Around
